

BLOOD, TISSUE & ORGAN SHIPPING

At QuickSTAT, we understand your business is saving lives. And we know that when it comes to your shipping needs, speed and temperature control are more than just important – they are critical. That's why QuickSTAT

employees are specially trained in the transportation of blood, serum, tissue, bone marrow and organs for transplant. So you can take comfort in knowing that only the most knowledgeable team of experts is managing the progress of your shipment from pick-up to final delivery. Specifically, QuickSTAT:

- > Offers pick-up and delivery any time of the day or night, 24 hours a day, 365 days a year.
- > Provides the fastest transit times using next-flight-out and same-day delivery services.
- > Analyzes the best routes available to meet crucial time requirements.
- > Works with Air Traffic Control and flight departments to initiate "Life Guard" flight status resulting in priority departures and arrivals.
- > Offers on-board courier services, with shipments hand carried by specially trained QuickSTAT staff.
- > Can charter aircraft if needed for additional speed, increased security or even to transport a surgical team.
- > Monitors temperature control throughout transit, replenishing ice or gel packs as needed.
- > Maintains close relationships with hospital emergency and operating rooms worldwide to meet all individual requirements and needs.
- > Sends automatic proof of delivery via the Web, phone, fax or email.

Since 1981, Quick International has been meeting impossible deadlines with consistent and personalized attention, and that is the foundation upon which QuickSTAT was built. We understand that meeting your deadlines is critical – and often means saving lives. We understand the urgency needed when shipping blood, tissue and organs – and offer you the fastest, most reliable transit options available. We understand the importance of each shipment – and give you the peace of mind knowing a team of experts is monitoring it every step of the way. QuickSTAT is your most knowledgeable source for blood, tissue and organ shipping.

QuickSTAT:

Delivering innovative solutions

Industry intelligence

And complete peace of mind.
