

## DATA TRANSPORTATION SERVICES

In today's world, data is as vital to the success of your company as the people you employ. To insure against loss of data – you have to consider how it's managed, where it's stored and how accessible it is, not to mention how best to maintain integrity and security on a day-to-day basis. An essential component to maintaining

security is disaster recovery, which often involves moving entire tape libraries from one location to another with speed, reliability and complete confidentiality. With 20 years of experience in moving critical shipments across the country as well as around the world, with both next-flight-out and charter services available – Quick International Courier is uniquely positioned to provide you with the best and most secure data transportation services. Specifically, Quick provides:

- > Access to data transportation specialists 24 hours a day, 7 days a week.
- > Complete disaster recovery services, including disaster recovery drills.
- > Data center relocation.
- > Emergency tape expediting.
- > Rate quotes within 10 minutes, and pick up within one hour of your call.
- > Door to door pick up and delivery.
- > Pulling and packing of media for transport, including shipping transport cases and preparation of shipping documentation.
- > Access to over 2,000 aircraft including commercial carriers and charters for next-flight-out and hand carry services, in addition to climate-control nationwide trucking services.
- > Charter flight services, airborne within one hour of your call.
- > A completely secure and confidential environment.
- > Close monitoring and tracking of shipments throughout transit to ensure that they move as quickly as possible through the system, meeting or exceeding all deadlines.
- > Immediate proof of delivery via phone, fax or the Web.
- > QuickOnline, our state-of-the-art self-service customer care Web site that allows you to monitor the progress of each shipment and access proof of delivery right from your desktop, as well as run on-time performance and cost analysis reports, and much more.
- > A minimum of \$500,000 cargo liability insurance with additional coverage available upon request.

Since 1981, Quick International has been meeting impossible deadlines with accountability and speed, and that is the foundation upon which our data transportation services have been built. We realize how critical the security of your data is to the daily operation of your business, and we understand the importance of a sound and reliable disaster recovery plan. We know that you need a transportation company who can provide protection for your data, while helping you get up and running in a minimum amount of time. Rely on Quick International's vast network of transportation resources for guaranteed time and cost efficiencies – whether you are moving a single back-up tape or your entire data center.

Quick International. Data Transportation Experts.
